DIVERSITY

Although today's focus on diversity is narrow and divisive, diversity was the essence of the America of past generations. People came from all over the world to become Americans and to pursue their dreams. They embraced their new world, it's language, and its opportunities without losing their identify... their uniqueness. We each have something to contribute... the whole is definitely greater than the sum of its parts.

Diversity adds spice ... our differences expand our horizons.

Sameness can be boring; diversity can be exhilarating!

Silent Struggle

“What do you think you can offer the Clinic this summer?” Mrs. Ramblin asked.
Katie paused, “I am full-blood Choctaw like you and Dr. Turner and I believe the Clinic demonstrates the blending of Indian remedies with White medicine. I want to be a part of making people who are suffering feel confident about their care. Sometimes that isn’t much, but it is important, and I can do that.”
