SPRING

The *awakening* of the world after winter is what makes spring so special... the whites and grays of winter morph into a profusion of color as grass, trees, and flowers come to life. Lovely shades of blue chase the gray from the sky and the sun warms the earth around us. You just can't beat the joy that comes with Spring!

Wherever you are... enjoy!

I can't think of a single *downer* about Spring, except that it only lasts three months.

The Wake-Up Call

They reached the roof and gaped at a large, ornate gazebo. "It's a building on top of a building," Frannie exclaimed, "a glass hexagon with a roof and invisible walls. Wouldn't this be perfect for a spring wedding?"

"Perfect... and a great place to do a little star gazing with a handsome guy," said Missy, as enchanted as Frannie. "Mom was right. This is a special place. Can't you just see women in long dresses and men in tuxes dancing under the stars? It reminds me of the *Sound of Music*. I can almost hear the music and see Liesl and Rolfe dancing."
