## MOTHERS' DAY

How nice to have a day dedicated to letting your mother know how special she is to you ... AND ... hearing how special you are to your children. Being a mother brings more happiness each year as relationships with children continue to become richer and more rewarding.

Don't let the day slip by without sharing your love and appreciation.

There's no greater validation of a mother's job well done, than a child's desire to emulate her.

Author Insight

Mother's Day

Mother's deserve a special day for all the "taking care of..." they did raising us. For some, like Frannie, growing up and assuming those responsibilities is a slower-than-normal process. Happy Mother's Day

Book Excerpt

*The Wake-Up Call*

"Learning to do for yourself is one of the reasons we agreed on a college away from home," her father reminded her. "Your mother can't take care of you forever."

"Maybe I should have listened to her and stayed in Philly," Frannie pouted. I could have gone to Temple and lived at home, and all this stuff would still be in my drawers and closets where it belongs. What was I thinking?"
