THINK POSITIVE

There's a lot to be said about the adage *attitude determines altitude*. Positive thinking creates the energy that stimulates positive outcomes. Pessimism squanders that energy. Look forward to the best that the day has to offer. That will give you the energy to manage the challenges you encounter along the way.

Focus on the possibilities, not the roadblocks.

JD and T Baker and Goodman a book bubble about

Against the World

synopsis | bio | website

Author Insight

Think Positive

Positive thoughts promote positive behavior. When you expect the best outcome, your actions enhance the possibility that the outcome will be a good one.

Book Excerpt

Against the World

"I heard once that sometimes people who are unconscious are aware of what is going on around them and even remember what they heard when they wake up. Do you think it's true?"

"Anything is possible, Sweetheart. We have to hope for the best and behave like that is exactly what will happen. It certainly can't hurt to think positive."
