APRIL FOOLS DAY

While the origins of this holiday are unclear, each of us has participated in foolishness that we can celebrate. Was it a good joke that you played on someone, something frivolous that brought laughter, a whimsical purchase that was worth it, regardless of the price??? Foolish can engender a smile... or a frown. Today we celebrate with smiles.

On this day we celebrate something we all have in common... the child in each of us.

Every day is an opportunity for foolish behavior. On April 1st we celebrate the most memorable.

Author Insight

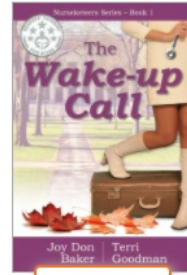

April Fool's Day

Good-natured kidding is intended to engage friends in light-hearted fun. Pranks, on the other hand, are not so friendly. In 1582, when France switched to the Gregorian calendar, the new began on January 1 instead of March 15. April fools were folks who "didn't get the message" and those who did taunted them with jokes and pranks.
